

One Little Song - Gillian Welch - capo 2

G /// | C/G ///

G C/G G G

There's gotta be a song left to sing

G G D

Cause everybody can't have thought of everything

D D

One little song that ain't been sung

D D G G

One little rag that ain't been wrung out completely yet

D D

Got a little left

C C Bm Bm

One little drop of falling rain - One little chance to try again

Am Am G G

One little bird that makes it home - Now and then

C C Bm Bm

One little piece of endless sky - One little taste of cherry pie

Am Am D D

One little week in paradise - And I start thinkin'

Gotta to be a song left to sing *Verse 2 (same chords as 1st)*

Cause everybody can't have thought of everything

One little note that ain't been used

One little word that ain't been abused a thousand times

In a thousand rhymes

TO CHORUS

Gotta be a song left to sing *Verse 3*

Cause everybody can't have thought of everything

One little song that ain't been sung

One little rag that ain't been wrung out completely yet

Until there's nothing left...
